\$ 320/ Year

Sponsor A Child Program was initiated by ARS Central Executive in 1992 to address the needs of the large number of orphans which resulted from the conflict in Artsakh and from the earthquake in Armenia.

The ARS Eastern USA Region is proud to announce that, for the past 20 years, more than 7,000 orphans have received the uninterrupted assistance of this program, through the Chapters' members, and generous donations of supporters.

Our sponsored orphans have reached the age of 18, and it is time to support the new phase of the Sponsor A Child Program, the Orphan Education program.

The ARS Orphan Education Program assists orphans, residing in Armenia and Artsakh, who have reached the age of 18. This was done in an effort to educate our orphans, so that they, in turn, may become productive members of the community.
